An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In amendment filed 09-09-03, in the paragraph bridging pages 10 and 11, line 3, delete "17a" after "from the lightly-doped n-type source region", and insert instead --18b-- due to a typographical error.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination neither discloses nor makes obvious the instant invention including a third impurity region of a second conductivity, wherein said third impurity region is one of an emitter region or collector region of a bipolar transistor, said third impurity region disposed away from said active areas. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
